

COALITION OF CONCERNED CANADIANS

Newsletter 50, Oct 19, 2026

Hello friends and supporters:

It has been a long time since my last newsletter and much has happened.

As you know, in February, the BC Human Rights Tribunal ordered me to pay \$750,000 to assuage the hurt feelings of teachers who are neither male nor female. They called this “existential denial” because I refuse to agree that there are more than two genders.

HERE IS HOW IT LOOKS NOW AND WHAT I HOPE FOR:

In early May, I was invited by Jeff Evely to Ottawa to join a delegation attempting to persuade federal Members of Parliament to stop child transition. Jeff is a Canadian soldier whose teenaged daughter was persuaded by school staff to transition while he was on active duty in Afghanistan. We were joined by Mia Hughes: researcher, Dr. Ann Gilles: therapist, Scott Newgent: transman and detransitioners Kelli-Lynn Annette Pirie and Faith Groleau. We had a “**MayDay! Kids in Crisis**” Town Hall meeting at the Biker’s Church and a Press Conference in the Parliament buildings.

In April, I filed a request for review of their decision (appeal) with the BC Supreme Court, including an affidavit, which was the transcript of almost 3 weeks of hearings before the Tribunal. We had to hire Court Reporters to transcribe the audio recordings of the procedure, and they came up with 1,494 pages, and billed us nearly \$30,000.

Since then, the BCTF has replied with about 150 pages of reasons why their decision should not be overturned. Mr. James Kitchen and his legal team have spent over 150 hours (~\$40,000) during August and September preparing our written reasons why the Tribunal’s decision is unjust. We expect the Court hearing will be at least 3 days long and will be sometime in the first half of 2027. My struggle against injustice has become known across BC and I am attempting to draw National and International attention to it.

I also attended the Canada Strong and Free Conference in Ottawa where I met Pierre Polievre. He told me that he agreed with me that there are ONLY TWO GENDERS!

All five Candidates for the BC Conservative Party Leadership have promised to eliminate the SOGI 1•2•3 Learning Resource from schools and to close down the BC Human Rights Tribunal. Despite their infighting, they have not gone back on that promise.

I was honored to give a speech at a Conservative \$100/plate fundraiser in Surrey with about 1,200 people attending.

Then on September 10, I gave an eulogy at a Candlelight Vigil for Charlie Kirk on the Anniversary of his martyrdom. Unfortunately, we were rudely bothered by some fanatical Aborigines and pro Palestine Supporters who made a lot of noise and screamed vulgar insults.

I was again invited to Ottawa on Oct 4, to participate in a delegation to Canadian Members of Parliament. A lineup of brave activists at the Capital City Bikers Church in Ottawa answered the question: ***“Are Canadian Christians Safe?”*** (They all said “NO!”)

BIKER’S PASTOR ROB AND HIS WIFE MELISSA

The meeting began with welcoming remarks and Prayer by Pastor/Biker Rob McKee.

Why the Bikers Church? It seats over 500 and we didn’t need to hire security because of the many tough looking bikers who attend the church. Each speaker introduced the next speaker:

- Dr. Devin Seghurs, former psychotherapist, who lost his credentials and livelihood when he refused to help a crazy mother transition her five-year-old boy to a girl.
- Linda Gibbons, who has spent 12 years in prison for protesting outside Abortion Clinics.

- Barry Neufeld, (me) former School Trustee, who has been fined three quarters of a million dollars for refusing to agree that there are more than two genders.
- Derek Sloan, former Member of Parliament who was dismissed from the Conservative Party for his Socially Conservative views.
- Hon Stockwell Day, former Member of Parliament and Cabinet Minister.
- Shane Jett, Oklahoma Senator who had come to Canada to express Americans' concern about the erosion of Free Speech and Religious Liberty in Canada.
- Christoph Elston: AKA Billboard Chris who has travelled around the world raising awareness about the dreadful practices of "Gender Affirming" care.
- Brent Larsen, former Canadian, now Oklahoma businessman and movie producer. He organized this event as part of his movie documentary about the death of Free Speech in Canada: **"Don't Talk About That."** Which he plans to release December 11, 2026.

BRENT LARSEN

The next day, we had breakfast with MP Dean Allison, who established the Allison Inquiry and will be taking it across the country <https://covidtestimony.com>

Then we had a tour of the Parliament buildings and watched our elected representatives yell and scream at each other over the price of diesel fuel. (Such juvenile, rude behavior! I wonder how they ever get any business done) Then a private meeting with a few Christian MPs: including Jamil Jivani (Bowmanville—Oshawa North), Dean Allison (Niagara West), Arnold Vierson (Peace River-Westlock. AB), and Ted Falk (Provencher, MB.)

Here are some of our interviews with independent News Media in front of the Canadian War Memorial.

Prior to 2017, I was already growing increasingly uneasy with the virtue signaling land acknowledgements and emphasis on the “indigenization” of Education. I missed the daily scripture reading and the Lord’s Prayer in schools, but I realized it was often “vain repetition.”

But now it has been replaced with Aboriginal “Welcome songs” which are a form of pagan glossolalia: **prayer to some spirit in an unknown language.** I cannot say “Amen” to a prayer I cannot understand.

Now, even science classrooms teach Aboriginal ways of knowing as scientific fact. Indigenous creation myths are presented as equivalent to science: including detailed raven creation stories, moon spirits, etc. These legends are presented as **"beautifully descriptive"** and paralleling the Big Bang theory. Critics such as physicists argue this **equates religious mythology with empirical science**, confusing students on **evidence-based methods vs. cultural storytelling**. Meanwhile, teaching the Biblical Creation story or Intelligent Design is banned in schools. This is clearly contrary to the non-sectarian rule Under Section 76 of the BC School Act because Aboriginal Spirituality has now been given preeminence.

It gets worse: Christian missionary efforts to lift aboriginal people from their animistic Stone Age worldview to become contributing citizens of the 19th and 20th century are now condemned as hateful. Christians are portrayed as greedy Colonialists. Our former Prime Minister dismissed the destruction of Churches as “understandable.” But prior to the establishment of residential schools, aboriginal communities suffered from slavery, cultural genocide and rampant disease. Residential Schools have now been equated with “genocide” with exaggerated death tolls and minimal context on disease: Curricula ignore the successes of Residential Schools and instead emphasize deliberate cultural destruction and exaggerated numbers of unmarked graves.

AMBASSADOR HOEKSTRA'S MANSION

After our media interviews we were invited to US Ambassador Pete Hoekstra's mansion overlooking the Rideau Canal for afternoon tea, where he heard about my story and our concerns about the erosion of religious liberty and free speech in Canada.

We wrapped the day up with a presentation to the Ottawa-Center

Conservative Riding Association meeting. That riding has NEVER elected a Conservative MP, but there were quite a few young people there, including Journalist Elie Cantin-Nantel. <https://www.eliecantinnantel.com/about>

We were invited by my old friend Shannon Boschy who is the President of the Association. Shannon has something in common with Rob Hoogland in BC and Jeff Evelyn in Nova Scotia. His teenage daughter was encouraged to transition to a boy by school staff. When Shannon objected to this, the school staff told the girl to shun her father as a "transphobe." So, rather than wallow in self-pity, Shannon is doing something positive: he is running for the Ottawa-Carleton school board.

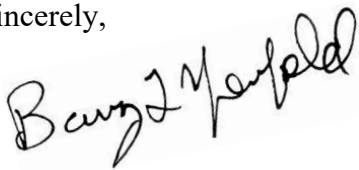

Gender ideology not only destroys children's lives and bodies, but it also destroys whole families and extended families. For the past eight years, this ideology which I call "Genderwang," has been enthusiastically promoted in our schools. **Promoted**, even though several countries around the world including the American Medical Association and the American Society of Plastic Surgeons are backing away from "affirmation only" therapy. But in Canada, due to the social contagion brought on by Genderwang, there are hundreds if not thousands of children who are convinced that they have been born in the wrong body. They are clamoring for puberty blockers, hormones and surgery. They are being coached to threaten suicide if they don't get what they want. A study at Tampere University in Finland followed over 2,000 youth who went to Gender Clinics. After cross-sex hormones and surgery the share of young Finns needing psychiatric care went from 19% to 49% and were FAR more likely to complete suicide. Here in Canada, there will be no way to help these confused children. The severe restrictions of the poorly conceived Federal Bill C4 prohibit any form of therapy that might convince a child that they were **NOT** born in the wrong body. Counsellors and

therapists are too terrified to explore any other form of therapy. (Look what happened to Dr. Devin Seghurs!) It is the law of the land that *“If you are gay, you must stay that way, and if you are trans, you can’t go back.”* Bill C-4 must be overturned! It is my firm belief that the Government should stay out of counsellors’ private offices. It should be up to the **counselling profession** to determine best practices, not politicians who have been cowed by activists. But if the government bans affirmative care, they must **shield therapists from prosecution when they explore other solutions** to a child’s gender distress.

The motivation that has kept me going for the past nine years is the protection of vulnerable children, and my Christian duty to Love my neighbor. Will you help me in my battle for truth, justice and child protection by sharing this newsletter with as many friends as you can?

Sincerely,
